

Commercial & Industrial Lighting Rebate Program

UP TO
\$15,000
REBATE
FOR
COMMERCIAL/INDUSTRIAL
MEMBERS

Hancock-Wood Electric Cooperative's Commercial & Industrial (C&I) Lighting Rebate Program helps replace inefficient internal and external lighting at member business facilities.

The program provides a rebate based upon the number of lamp watts reduced when replacing old lighting with new, energy-efficient lighting, and members are eligible for the rebate when specifications are met.

SPECIFIC REQUIREMENTS:

This program is applicable to commercial and industrial business facilities only. Residential members are not eligible.

Pre-approval of the project is required prior to installation.

Pre-approval is obtained through the submission of a completed application form. The application must include the contractor's detailed quote with the project cost estimate.

To qualify, lighting at the facility must be used a minimum of 1,800 hours per year. All projects must be a retrofit interior or exterior lighting installation. All equipment must be new; used or rebuilt equipment is not eligible.

An on-site visit is required to confirm installation of the project. Projects must be installed and completed between 1/1/22 and 12/31/22.

*Hancock-Wood's rebate on C&I lighting is limited. The offer expires when funds are depleted on a first-come, first-served basis, or when the program is discontinued.
